PORTFOLIO PROJECT · REAL DATA: CITY OF TORONTO OPEN DATA, 2023 TO 2025

Toronto 311: where do requests go unresolved?

Start here: the question, the three findings, and how to use this report.

The question: Where does the city leave requests unresolved, and what is behind the growth in 311 demand?

Growth in requests

2025: 500,269 requests vs 437,043 in 2024

+14.5%

Part of the February 2025 spike comes from new snow-related request types.

Parks & forestry still open

2025: other divisions range from 1.4% to 6.6%

49.4%

The gap is large even for requests made years ago.

Requests on renamed types

2025 requests under type names new since January 2025

58.2%

Request-type trends cannot be compared across 2024 and 2025.

How to use this report

- Use the page buttons at the top right to move between pages.
- Each page opens with its key findings; they change with the filters.
- Overview: how demand moved and how much is still open. The Year filter carries across pages.
- Outcomes: which divisions leave requests open. Hover over a bar for its outcome mix.
- Right-click a division bar, choose Drill through, then Division detail, to see its request types.
- Request types: what residents ask for. Use the Taxonomy era filter to compare types fairly.

About the data and model

- Source: City of Toronto Open Data, 311 Service Requests, 2023 to 2025 (Open Government Licence - Toronto).
- 1,351,594 requests, cleaned in SQL (about 8% of rows needed repair) and summarised monthly into 295,239 rows.
- Star schema: one fact table with Date, Division, Request type and Status dimensions. Measures are written in DAX.
- Totals reconcile with the SQL results: yearly counts, open share by division and the 58.2% renamed-type share.

Main limit: the data has no close date, so I report status as of the data snapshot, not how long requests took. An open status can mean a real backlog or a status that was never updated.

PORTFOLIO PROJECT · REAL DATA: CITY OF TORONTO OPEN DATA, 2023 TO 2025

Toronto 311: demand is rising, and some requests stay open

1.35 million customer-initiated requests, 2023 to 2025, and what happened to them.

Year: 2025

In 2025, requests rose 14.5% to 500,269; 7.8% are still open.

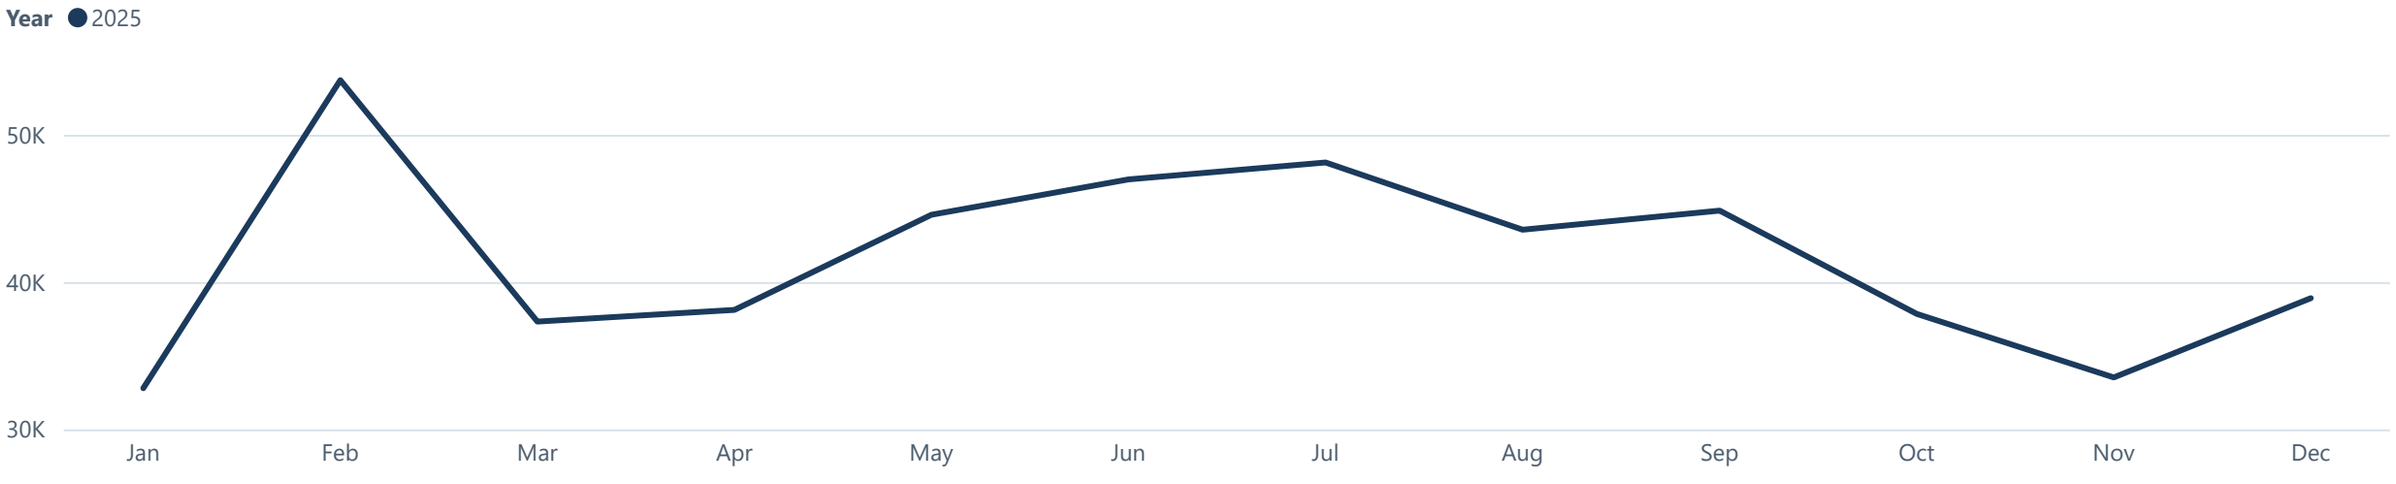

Reset filters

Requests	Resolved	Still open	Parks & forestry still open
▲ 14.5% vs 2024			▲ 45.1 pts vs rest
500.3K	80.5%	7.8%	49.4%

Busiest month	Quietest month	Parks & forestry share of open requests
53,707 requests	32,793 requests	of all open requests, from 7.5% of requests
Feb 2025	Jan 2025	47.9%

Requests per month, one line per year

Demand peaks every summer, and 2025 runs above 2023 and 2024 for most months.

Definitions: Resolved = Completed or Closed. Open = New or In Progress at the data snapshot. Open does not mean overdue: the data has no close date.
Read with care: request types were renamed in January 2025, so the February 2025 spike (the busiest month in 2025) partly reflects new snow-related types that did not exist before.

Data: City of Toronto Open Data, 311 Service Requests (Open Government Licence - Toronto). No close date in the data. Not an official City report.

Data through Dec 2025

PORTFOLIO PROJECT · REAL DATA: CITY OF TORONTO OPEN DATA, 2023 TO 2025

Half of parks and forestry requests are still open

Share of requests by outcome, by division. Use the year filter to compare years.

Year

2025

How to read: Open % is the share of a division's requests still New or In Progress. With 2023 selected, parks and forestry is still 44.7% open, so these are old requests. Hover over a bar for the outcome mix; right-click, Drill through, Division detail for its request types.

Reset filters

Highest open share

Parks, Forestry & Environment (37,611.0 requests)

49.4%

Lowest open share

311 (7,690.0 requests)

1.4%

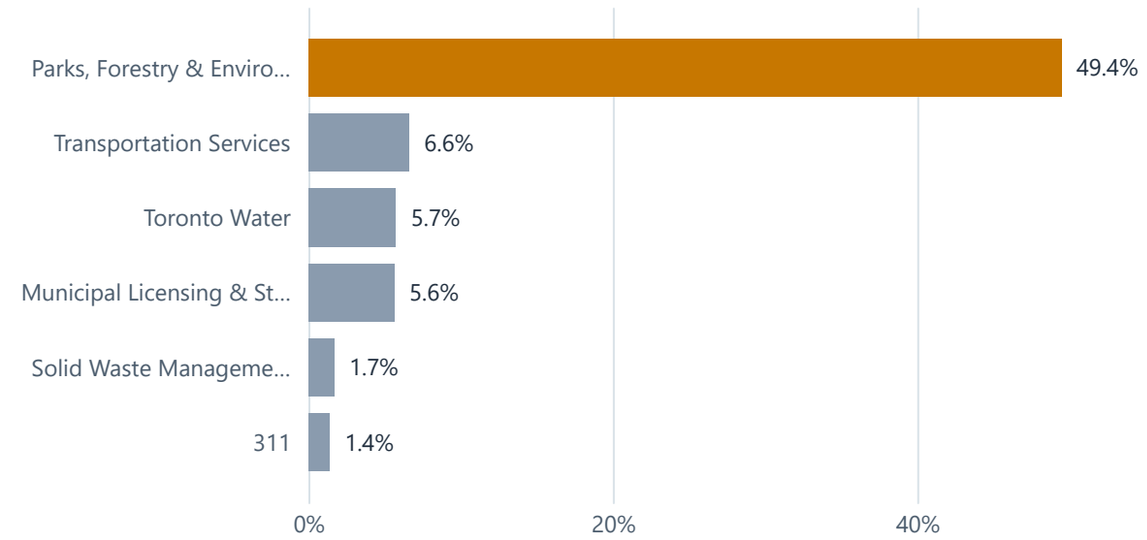

Largest division by requests

170,443.0 requests, 1.7% still open

Solid Waste Management Services

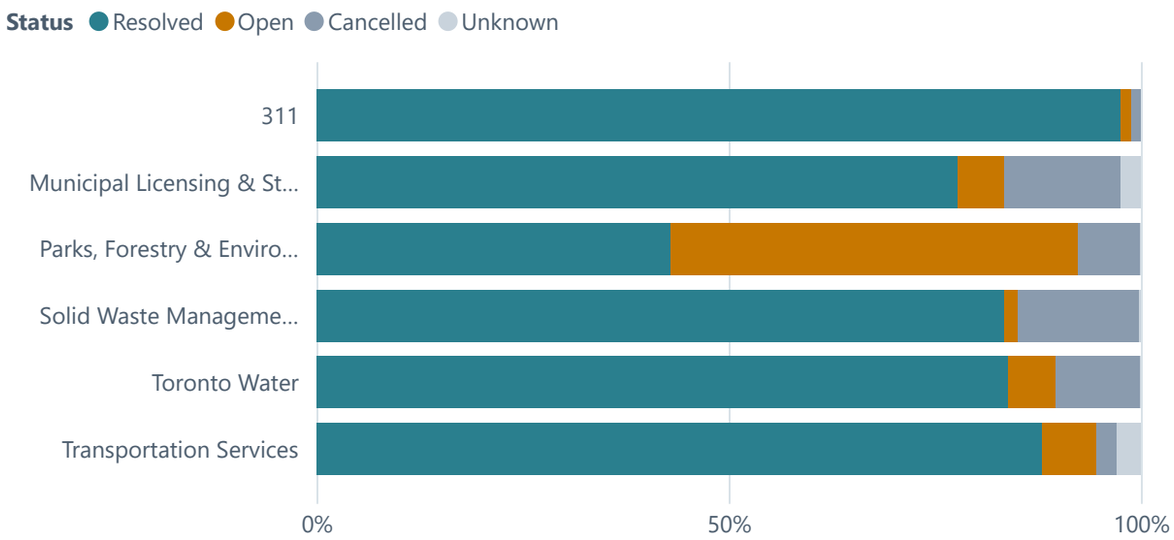

Still open, by division

Parks, forestry and environment stands apart from every other division.

Outcome mix by division

Most divisions resolve nine in ten requests.

Division scorecard

Volume and outcome shares for the selected year.

Division	Requests	Resolved %	Cancelled %	Open %
311	7,690.0	97.6%	1.1%	1.4%
Municipal Licensing & Standards	117,630.0	77.8%	14.1%	5.6%
Parks, Forestry & Environment	37,611.0	42.9%	7.6%	49.4%
Solid Waste Management Services	170,443.0	83.5%	14.7%	1.7%
Toronto Water	36,839.0	83.9%	10.3%	5.7%
Total	**500,269.0**	**80.5%**	**10.3%**	**7.8%**

Limit: open means New or In Progress at the time of the data snapshot. The data cannot tell a genuine backlog from a status that was never updated, because it has no close date.
